Remove this layer before exporting

TALENT
2000mm Snap Rail
Roller Banner

This artwork template is supplied
at **100% scale** + 3mm bleed and
200mm to attach to the leader paper
MIN. 2006mm(w) x 1806mm(h)
MAX. 2006mm(w) x 2356mm(h)

Ensure your working document and
export colour space is CMYK

Export resolution must be
set to a minimum of **300dpi**

Images must be **linked** or
embedded before exporting

Colours on your monitor may
vary from those printed

Any text should be converted to
outlines to avoid missing/pixelated fonts

NON-VISIBLE AREAS

SAFE AREA
50mm Less than Finished size

Main visual elements should remain within the safe area
to ensure that they are not cut off during production
(An exception to this is if you wish to have full-bleed designs)

MIN. FINISHED ARTWORK
2000mm(w) x 1800mm(h)

This acts as a cut-line, anything outside of this
line will be removed at the finishing stages

This area will be concealed
by the mechanism
(Continue your artwork into this area to avoid
a white gap between the cassette and design)

Variable height
due to telescopic pole

MAX. FINISHED ARTWORK
2000mm(w) x 2350mm(h)

This acts as a cut-line, anything outside of this
line will be removed at the finishing stages

This area will be concealed
by the mechanism
(Continue your artwork into this area to avoid
a white gap between the cassette and design)
