Remove this layer before exporting

ORIGIN
1000mm Snap Rail
Roller Banner

This artwork template is supplied at **100% scale** + 3mm bleed and 200mm to attach to the leader paper **1006mm(w) x 2206mm(h)**

Ensure your working document and export colour space is CMYK

Export resolution must be set to a minimum of **300dpi**

Images must be **linked** or **embedded** before exporting

Colours on your monitor may vary from those printed

Any text should be converted to **outlines** to avoid missing/pixelated fonts

SAFE AREA
950mm(w) x 1950mm(h)

Main visual elements should remain within the safe area to ensure that they are not cut off during production (An exception to this is if you wish to have full-bleed designs)

FINISHED ARTWORK
1000mm(w) x 2200mm(h)

This acts as a cut-line, anything outside of this line will be removed at the finishing stages

NON-VISIBLE AREAS

This area will be concealed by the mechanism

(Continue your artwork into this area to avoid a white gap between the cassette and design)
