

PANORAMA TWO WAY VISION

Two Way Vision is a glossy, calendered PVC film. It is specifically designed for applications where the advertisement should be visible from both sides. With this effect the advertisement gets a whole new value and is very versatile. Even though you only print on one side, the picture is visible on both sides. This film is perfect for advertisement that is allowed to be seen from the inside as well as from the outside. Due to the prism and the open area you have a high visibility to the outside and the daylight inside.

Durability

Up to 2 years in mid European conditions.

Printing method

Solvent, eco-solvent, UV curable inks and latex inks.

Shelf life

1 year, stored at +15°C to +25°C (+59°F to +77°F) and relative humidity between 45% and 70%.

Warranty

Continental Grafix products are warranted to be free of defects in material and manufacture at the time of shipment and to meet the specifications stated in the technical specification sheets. We will replace or refund the price of any Continental Grafix materials found to not meet our product specifications. In no case shall Continental Grafix be liable for any direct, indirect, or consequential damages, including labor or non-Continental Grafix materials charges. The determination of suitability of this product for any specific use is solely the responsibility of the user. No representations, guarantees or warranties of any kind are made to the accuracy of suitability for specific applications.
