

PANORAMA FILM

panoRama Film is an innovation which allows you one-way see-through features (non-self-adhesive) for poster, room divider or advertising on or near windows. It is an innovative solution and can be applied in many different and cost effective ways - also on advertisement space which has not been used up to now.

Durability

2 to 3 years indoor application mid European conditions.

Printing method

Solvent, eco-solvent, UV curable inks, screen printing and latex (special liner required, please contact us). Please switch off the preheating systems at solvent printing.

Shelf life

1 year stored at +15 to +25°C (+45°F to +80°F) and relative humidity between 20% and 70%. In use at +5°C to +40°C (+41°F to +104°F) and relative humidity between 30% and 70%.

Warranty

Continental Graftix products are warranted to be free of defects in material and manufacture at the time of shipment and to meet the specifications stated in the technical specification sheets. We will replace or refund the price of any Continental Graftix materials found to not meet our product specifications. In no case shall Continental Graftix be liable for any direct, indirect, or consequential damages, including labor or non-Continental Graftix materials charges. The determination of suitability of this product for any specific use is solely the responsibility of the user. No representations, guarantees or warranties of any kind are made to the accuracy of suitability for specific applications.

Uses

Hanging posters from ceiling or applied behind shop windows
Background of show case
Room divider
Inside application on windows by use of panoRama Tape

Features & Benefit

Excellent resistance against direct sunlight
Re-usable perforated media as it is non-adhesive
Air permeable and light material
Can be equipped with adhesive after printing in combination with panoRama Tape
No more professional service required for installation
Creation of new advertising space
No vandalism
