

213 SERIES TRAFFIC GRAFFIX OVERLAMINATE

213 Series is a 95 mic clear flexible embossed polypropylene film designed for use as an economical short term protective overlay for Traffic Graffix® decals. This laminate is also an environmentally friendly alternative to PVC films. 213 Series overlaminates offers a permanent acrylic pressure sensitive adhesive formulated for exceptional clarity and bond for these types of applications.

Applications	This product is intended for use as an overlaminating film to produce short term indoor Traffic Graffix floor decals, table and counter top applications. Concept 213 is also approved for indirect food contact. The adhesive is formulated to adhere to most common printing inks. However, specific formulations must be tested before use. Some inks may contain excessive flow additives that could reduce adhesion of this product. Test before production.	
Slip Resistance	213 Series is classified under UL 410 for floor graphics overlay applications.	
Indirect Food Contact	The film and adhesive complies with the following citations in 21CFR 174 thru 182 and 21CFR 175.105 respectively.	
Thickness	Film	95 mic.
	Adhesive	25 mic
	Liner	135 gsm
	(Thickness variance +/- 10%)	
Temperature Ranges	Minimum application temperature	+4,4°Celsius
	Service temperature	-40°C to +93°C.
Expected Exterior Exposure	This product is designed for interior applications.	
Durability	213 Series will function as a floor overlaminates for six (6) months under normal use.	
Adhesion	To stainless steel	10,94 N/25mm
	Tested according to PSTC-101 Method A with 24-hour dwell at 21°C and 50% relative humidity. Typical values. Individual values may vary. Test thoroughly before production.	
Water Resistance	Excellent.	
Humidity Resistance	Excellent.	
Storage Stability	Six (6) months shelf life when stored at 21°C and 50% relative humidity.	
Product Series	1,37m x 50m 1,52m x 50m
