

VistaMAX QuickDot Adhesive White Vinyl 100mic

VistaMAX QuickDot is one of the quickest and easiest vinyls to apply to any smooth surface. The special dotted removable glue allows the air to pass through preventing any air pockets forming between the vinyl and the surface. And when the vinyl is removed, the glue leaves no residue. Use this on windows, furniture or smooth walls for best results!

Order Code	W (mm)	L (mm)	Thickness (mic)
ISB275684	1370	50	100
