

TECHNICAL SPECIFICATIONS

VISTAMAX® GE5080AE

GLASS ETCH POLYMERIC FILM, CLEAR PERMANENT ADHESIVE, AIR RELEASE LINER 80MIC

Features & Benefits

- 5 year durability
- Frosted/sandblasted glass look
- Easy, bubble-free application
- No residue on removal

Printing

- The material should reach room temperature and a relative humidity of approx. 50% prior to printing.
- Ensure the material is kept free of dust, dirt and static. We recommend using gloves when handling the material.
- Conduct a print test prior to printing the material for a live project.
- Rolls are wound Print Side Out (PSO).
- Suitable for printing with Eco-Solvent, Solvent, UV & Latex inks.

Application

- Suitable for application to flat or slightly curved surfaces

- This product is not designed for application to low energy surfaces
- It is the responsibility of the user to determine the suitability of the material for the application.
- Test the application with a small piece of the material prior to doing the full application

Storage

- We recommend storing the material in its original box and wrapping when not in use.
- Material can be stored for up to 12 months when stored in the original packaging
- Store between 20°C and 25°C at 50% relative humidity

Characteristic	Result
Film Type	Polymeric calendared PVC
Liner Type	Two sided PE coated, silicone paper 144gsm
Adhesive Type	Clear micro-structure solvent acrylic permanent
Film Thickness	80mic
Adhesion	7 N/50mm
Application Temperature	+10 - +40 °C
Service Temperature	- 40 - +80 °C

Product Code	Width (mm)	Length (m)
INV214504	1370	50
