

TALENT ROLLER BANNER

The distinctive wave-shaped design of the Talent roller banner's cassette fulfills the demands of both form and function. With the extendable pole ranging from 1630mm up to 2356mm high this is a great all rounder!

The low banner feed opening means your graphics extend close to the floor for ultimate impact while the unique design gives the Talent excellent stability without the need for an additional foot. A telescopic pole and gloss black end caps further add to the premium feel of this stylish and eye-catching roller banner. The Talent's performance is suitable for any indoor environment but its compact design adds extra value in settings where space is at a premium.
